SOFTWARE DEVELOPER

jarvinct3@gmail.com • 8096376631 • [Linkedin](#) • [Website](#)

As a frontend developer, I design and build user interfaces, manage data using APIs, implement business logic with the client, and ensure effective communication with the backend. I use HTML, CSS, JavaScript and frameworks to create attractive and responsive interfaces.

Excellent skills for page and application layout, I am proactive, I learn very quickly, I adapt well to a new environment and I am very friendly, I consider myself an efficient person who can meet your needs.
